ŠKODA

The ŠKODA Superb

Effective: October 2014

Welcome to the Superb

The Superb has represented the pinnacle of ŠKODA style and design for nearly eight decades. First introduced to the range in 1934, Superb models have become synonymous with strong design and powerful road presence. Now, thanks to a substantial restyle of both the hatch and estate models, the latest evolution reaffirms its position at the top of the ŠKODA range.

With a host of design enhancements that align the Superb with the latest members of the ŠKODA family, the flagship model in the range has a new energy and an even more engaging and striking appearance.

The front of the Superb has been completely redesigned from the A-pillars forward, with new bonnet, wings, bumper and grille combining to give a familiar yet expressive new look to the Superb range.

The Superb offers an improved engine range that delivers lower emissions and markedly improved fuel consumption across the model line-up. Every engine in the new range emits less CO_2 than before, with every model delivering enhanced fuel efficiency.

Read on to discover the new design, greater comfort and lower fuel consumption.

Auto Express Driver Power Manufacturer of the Year 2012 ŠKODA

You'll spend three years of your life in a car. Make the right choice. Choose the ŠKODA Superb.

Model shown is Superb Estate Elegance with optional panoramic sunroof, front parking sensors and Brilliant Silver metallic paint.

The Superb has become a showcase for ŠKODA'S design and engineering excellence.

Model shown is Superb Hatch Laurin & Klement with optional Magnetic Brown metallic paint.

Design

Style, comfort and practicality are qualities that have always marked the Superb as a true flagship of the ŠKODA range.

The design of the Superb is now defined by the new ŠKODA design language.

The front is dominated by the new ŠKODA logo located above the chrome front grille and aligned with the headlights whose straight lines give a compact yet dynamic impression.

Superior and dynamic

EXTERIOR

- BI-XENON LIGHTS
- TWINDOOR
- LED REAR LIGHTS
- SUNROOF

Bi-xenon lights. The optimal illumination of the Bi-Xenon lights perfectly match the overall dynamic look of the Superb. LED daytime running lights now complement the Bi-Xenon headlights by adding two vertical rows of LED's making the car clearly visible and eye catching. Standard on Elegance and Laurin & Klement.

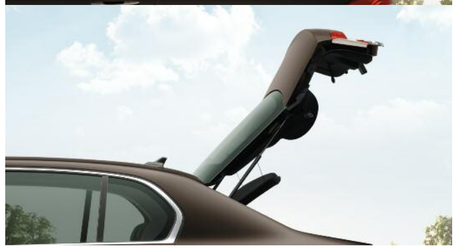
Panoramic sunroof (Estate only). Standard on Laurin & Klement and optional on SE & Elegance this two-part electrically-adjustable panoramic sunroof, provides an excellent enhancement to the luxurious interior of the Superb.

LED rear lights. At the rear of the car, the light clusters are enhanced by LED strips as standard across the range creating a sharper and brighter appearance.

Electrically controlled fifth door. The Superb Estate is available with an optional electrically operated boot. At the touch of a button - either beside the gearstick, on the key fob (press and hold for 2 seconds) or on the boot itself, the boot will open automatically.

When you have finished loading, press the button on the inside of the tailgate and the boot will close. This system has a clever feature for when you may park somewhere with a low ceiling - the height of the boot opening can be pre-set so you don't have to worry about any unwanted scrapes and dents.

Electric sunroof with solar cells. Available as an option on Hatch the sunroof supplies electric energy that drives an air conditioning ventilator, which takes care of the air circulation inside the Superb. Therefore even after extended parking in the sun a fresh and pleasant climate will await you.



Twindoor (Hatch only). Twindoor is ŠKODA's revolutionary boot opening mechanism which allows the boot to be opened in two different ways; as a hatch or as a saloon at the simplest touch of a button. This gives you great versatility and more practicality compared to a standard hatchback or saloon car.

INTERIOR

- VAST INTERIOR SPACE
- EXCEPTIONAL LEG ROOM
- WELL CRAFTED & SOPHISTICATED
- CLEVER STORAGE SOLUTIONS

Exceptionally spacious interior. The Superb offers a tremendous amount of legroom and luggage space for all passengers. The Estate has an enormous 633 litres of usable space in the boot which extends to 1,865 litres of space with the seats down. In comparison, the Hatch boasts 595 litres, all easily accessible via the Twindoor boot opening. This space extends to 1,700 litres with the seats down. Passengers also benefit from enormous amounts of leg room.

Boot net programme. An option on both Hatch and Estate, this variety of nets enable your cargo to be safely stowed ready for any journey.

Umbrella compartment. This ingenious compartment complete with Superb umbrella is designed so that the water from the wet umbrella flows away from the car and means whatever the weather you are prepared. Standard on SE, Elegance and L&K.

Boot floor with aluminium rail and partition system. Available on Estate, this option helps secure your cargo in the vast luggage space.

Class leading space

Superb Estate Elegance with optional wood decor and optional boot floor with aluminium rail and partition system

TECHNOLOGY

- MULTI-FUNCTION STEERING WHEELS
- RADIO & SOUND SYSTEMS
- DSG
- MDI
- KESSY
- PARK ASSIST

Modern **technologies** not only make travelling more pleasant but increase the ease of handling the vehicle.

For example, the optional 3-spoke **multi-function leather steering wheel** offers you control of the radio, phone and the automatic DSG (Direct Shift Gearbox). A 4-spoke **multi-function leather steering wheel** enabling control of the radio and phone is standard across the range.

Direct Shift Gearbox (DSG), available in both 6-speed and 7-speed versions, guarantees smooth and rapid gear shifts resulting in maximum utilisation of the potential of the engine's torque.

The **recommended gear shift** function is displayed in the top right corner of Maxi DOT.

In vehicles equipped with the optional **KESSY** (Keyless Entry, Start and exit system) there is a **Start/Stop** button on the steering column for keyless starting and switching off of the engine.

The **Bolero radio** which is standard on SE has multitude of functions, such as a reader for SD or MMC data cards, the ability to play CDs as well as files in MP3 and WMA formats and memory for radio traffic reports (TIM).

The **Columbus navigation system with DAB** radio which is standard on Elegance and Laurin & Klement has a 6.5" colour touch-screen and voice command function.

The optional **10 speaker sound system** with a 10-channel amplifier plus a digital equaliser and ten speakers provides excellent sound reproduction in the vehicle.

The **MDI** (Mobile Device Interface) gives you the ability to control a connected external device through the radio, navigation system or multi-function steering wheel.

Park assist. Optional on Superb SE and Elegance, standard on Laurin & Klement. Parallel parking and bay parking in the Superb is now easier than ever thanks to a further evolution of ŠKODA's award winning Park assist. With a press of a button, the system will begin searching for a parking space in a line of cars or obstacles. When a suitable space is found (the car's length + 60 cm is all the space needed), the car will steer itself into the space whilst the driver controls the pedals. The system will now also steer the car out of a line of cars from its parking space and with two presses of the same button, the car will search for and manoeuvre into a bay parking space.

ŠKODA GreenLine III Technology

Model show is Superb Estate SE GreenLine III. Please note in the UK Chrome roof rails are standard on this trim.

ŠKODA Green Future forms an integral part of our corporate philosophy. This is reflected in our efforts to keep reducing fuel consumption and consequently CO_2 emissions and no more so then as displayed by our GreenLine models.

The **Superb GreenLine** has, among other modifications, a lower chassis and reduced weight. Powered by the **1.6 TDI CR 105PS DPF** it achieves a combined consumption of 67.3 mpg (65.7 mpg on Estate) and a CO_2 emission level of **109 g/km** (Estate 113 g/km).

A **GreenLine badge** can be found on the front grille.

The **GreenLine logo** can be found on the rear of the car.

Low rolling resistance tyres. The Superb GreenLine III has 16" Spectrum Alloys on S trim or 16" Helix Alloys on SE and Elegance trim. These lighter alloy wheels with low rolling resistance tyres have a higher prescribed air pressure to reduce friction.

The Start-Stop system automatically switches off the engine, for example while waiting at the traffic lights. By pressing the clutch pedal the engine automatically restarts.

Energy recovery functionality, further assists this by enabling effective use of the car's kinetic energy for battery recharging.

Standard Equipment

12V socket in mid console and boot
16" 'Spectrum' alloys (7) x 16" 205/55 R16 94V)
2 folding hooks in boot
3 headrests rear, height adjustable
3.5mm aux socket (for MP3 players etc)
4-spoke leather multi-function steering wheel for radio and telephone
8 loudspeakers
Adjustable instrument illumination
Air conditioned glovebox
Alarm with interior monitoring and tilt sensor
Body coloured bumpers
Body coloured door handles
Black roof rails (Estate only)
Brake pad wear indicator
Chrome front grille with new ŠKODA logo
Chrome inner door handles
Cloth upholstery
Cruise control
Cup holders in the mid-console
Curtain airbags
Daytime running lights
Door open indicator
Driver and front passenger airbags
Driver and passenger seat-belt warning light and buzzer
Driver's knee airbag
Dust and pollen filter
Electric front and rear windows with child safety system
Electrically adjustable, heated, body coloured door mirrors (with integrated indicators)
Electromechanical speed dependent power steering
Electronic engine immobiliser
Energy recovery (1.4 TSI, 1.8 TSI and diesel engines only)
ESC incl ABS, MSR, ASR, EDS & HBA
Front aero windscreen wipers
Front armrest
Front fog lights
Front headrests, height adjustable
Fuel supply cut-off (in event of an accident)
Gas strut for engine cover
Gear change recommendation (manual only)
Glasses storage compartment
Halogen projector headlights with DE module
Height adjustable driver and passenger seats
ISOFIX (2 outer rear seats)
Light assistant (coming home and tunnel light)
Luggage space illumination
Manual air conditioning
Maxi DOT trip computer
Metallic grey inserts
Outdoor temperature gauge
Passenger airbag de-activation switch
Premium GSM III telephone preparation with Bluetooth® (UHV & rSAP)
Radio 'Swing' 2 DIN with single CD (can play MP3 recordings)
Rear LED lights
Rear seatbelts with pre-tensioners
Remote central locking
Removable LED light in the boot (Estate only)
Removable parcel shelf
Side airbags front
Speed warning indicator
Split folding rear seats
Stop/start engine system (1.4 TSI and Diesel engines only)
Storage box under passenger seat
Storage pockets on the rear of front seats
Ticket holder on the A-pillar
Tinted glass
Tyre pressure monitoring system
'Twindoor' (Hatch only)
Tyre repair kit
Vanity mirror with illumination, driver and passenger
Variable servicing
Ventilation outlets in B-pillar

S GreenLine III - over and above S

Optimised rolling resistance tyres (205/55 R16 91H)
Ride height is 15mm lower to improve aerodynamics
GreenLine III logo on the boot

□ Where law permits.

Tank

Fuel tank content - 60 litres

Fuel - Lead-free petrol with RON 95 or Lead-free petrol with RON 91†

Diesel CZ 49. No biodiesel

Body type - 5 door, two compartment, 5 seater

Drag coefficient Hatch
Cw 0.30 (0.29 GreenLine III)

Drag coefficient Estate
Cw 0.29 (0.28 GreenLine III)

CR - Common Rail

Official fuel consumption for the Superb range in mpg (litres/100km):

urban	21.7 (13.0) - 54.3 (5.2)
extra urban	40.4 (7.0) - 78.5 (3.6)
combined	30.4 (9.3) - 67.3 (4.2)
CO_2 range	217 - 109 g/km

† Lower efficiency when using lower RON petrol.

We measure the maximum power output figures of our engines in PS or Pferdestärke (horse strength in German), which is the metric equivalent of bhp. To convert from metric to imperial horsepower, divide the PS figure by 1.0139.

* Fuel consumption and CO_2 figures are obtained under standardised EU test conditions (Directive 93/116/EEC). This allows a direct comparison between different manufacturer models but may not represent the actual fuel consumption achieved in 'real world' driving conditions. More information is available on the ŠKODA website at skoda.co.uk and vca.gov.org.

ŠKODA Solutions. Your journey, your choice.

ŠKODA Finance like to do things a little differently, that's why for many years we've specialised in providing simple and convenient funding options for ŠKODA drivers. It's what we know.

ŠKODA Solutions, the personal contract plan, is all about you; a flexible, competitive fixed-rate plan designed around you and your budget, putting you firmly in the Superb driving seat.

Solutions is different because you defer a proportion of the car's value until the end of the agreement, giving you significantly lower monthly repayments than if you'd taken out a loan....ever heard of a bank being so imaginative?

Solutions is totally flexible. You get to choose the size of your deposit (from as little as one monthly payment), and a repayment period which suits you and at the end of the term you have 3 options to choose from.

1. Part-exchange the car for a new ŠKODA on a new Solutions contract.
2. Pay the optional final payment so that you own the car.*
3. Circumstances changed? Return the car to us (subject to terms and conditions).

DEPOSIT
As little as one repayment

BALANCE
A flexible repayment period (18-42 months)

OPTIONAL FINAL PAYMENT
3 choices at the end of the agreement

ŠKODA Finance also offers hire purchase, contract hire and service and maintenance plans.

Speak to your ŠKODA retailer for your personalised quotation today

*Subject to payment of the option to purchase fee. An offer of finance depends on certain conditions. Subject to status, indemnities may be required. Available to over 18's in the UK only. ŠKODA Finance. ŠKODA Finance is a trading name of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Registered in England number 2835230.

Free Ensurance for 3 years.

No-one likes to think about their ŠKODA being damaged in an accident. But if it was you'd no doubt want it repaired to ŠKODA standards, by a ŠKODA trained technician using only ŠKODA genuine parts. Would your motor insurance provider guarantee to do that? We didn't think so...

Thats why we came up with Ensurance - ŠKODA`s free accident and repair cover.

Ensurance works alongside your existing comprehensive motor insurance policy, no matter who you are insured with, to help get you back on the road as smoothly as possible. Better still, its free for three years and is available on both new and older models.

Your free Ensurance cover includes:

> Guaranteed use of a ŠKODA approved repairer, ŠKODA trained technicians and the use of genuine ŠKODA parts and paints
> A dedicated Claims Manager who will look after your entire claim from start to finish
> Help to recover any uninsured losses with our Legal Expenses Cover
> An Online claims tracker so you can keep up to date with the status of any claim

To benefit from Ensurance you'll need to activate your free cover which takes less than a minute.

We hope you don't ever have to use your policy but it's nice to know it's there – just in case.

ŠKODA Insurance. Have a safe trip.

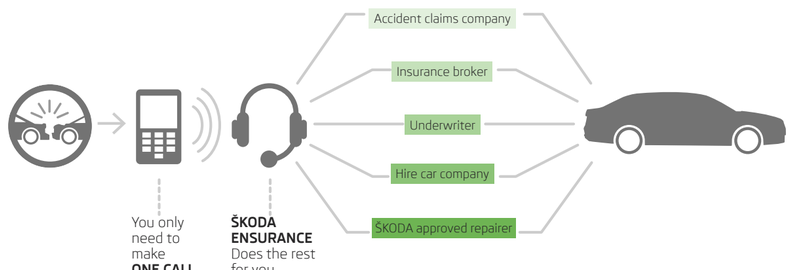
So that you can drive your new ŠKODA straight home, we offer seven day complimentary insurance with every new car.

It has all the features of our standard insurance, including the peace of mind that comes from insuring with the people who know your car best.

Call us free on 0800 316 7895, provide us with a few details, and we'll send a cover note to your retailer. They will then tax your car and you can drive it away. Telephone lines are open Monday to Friday 8am - 9pm and Saturday 9am - 5pm.

But remember, our annual cover could make that peace of mind last the whole year. For details of our full range of insurance products please visit insurewithskoda.co.uk or for a quote call us free on 0800 316 7895.

You only need to make one call, Ensurance deals with the rest...



Your car is **guaranteed** to be repaired by a ŠKODA Insurance approved repairer. Only **genuine** ŠKODA parts **will be used.**

For more information and to take out cover today visit skoda-ensurance.co.uk

ŠKODA Insurance motor insurance is sold, underwritten and administered by Allianz Insurance plc.

Owning a ŠKODA

We make sure it's easy, fun, and stress-free.

ŠKODA customer service is officially award-winning. We have been voted Number 1 in four of the last five Auto Express Driver Power Surveys.

Network capability

You can enjoy our award-winning customer service through our network of around 165 Authorised Repairers.

As a ŠKODA customer, you will be looked after by your retailer from the moment you walk through the door and throughout the life of your ŠKODA. Your new Superb will be serviced and maintained to the highest standards by specially trained ŠKODA technicians. And when you need a spare part, you'll be happy to know that most are held in stock, or can be ordered within 24 hours.

The ŠKODA Customer Promise is a commitment from our retailers to offer:

> Care and consideration for you and your car
> A flexible and convenient service
> Expertise and attention to detail
> A clear explanation of our work

Roadside Assistance

A three year, European-wide, unlimited mileage ŠKODA Assistance policy comes free of charge with every new ŠKODA.

There's a team of specially trained Technicians who carry the right diagnostic equipment and parts to get you back on the road as quickly as possible in the unfortunate event of a breakdown. They'll even help you if you fill up with the wrong fuel, lose your car keys, or get a puncture.

Warranty

When you buy your new ŠKODA through our authorised retailer network, it is automatically covered by a three year, 60,000 mile manufacturer's warranty.

There's no mileage limit on the warranty in the first two years and for additional peace of mind there's a 12 year body protection warranty.

You can even extend your warranty to four or five years, see the option page for prices and page 43 for further details.

Warranty cover from new			
First 2 years	First 3 years	4-5 years	Up to 12 years
Unlimited mileage	3 years or 60,000 miles, whichever is sooner	Optional Extended Warranty	Body Protection Warranty

Further information

You can find lots of additional information about owning a ŠKODA on our website at skoda.co.uk. Our retailers are always happy to help with any questions, backed up our dedicated Customer Service Centre. We look forward to hearing from you soon.

Call: 03330 037 504
Email: customerservices@skoda.co.uk
Open 8.30am - 5.30pm

Model shown is Superb Hatch Laurin & Klement with optional Magnetic Brown metallic paint.

Technical glossary

ABS: the anti-lock braking system prevents the wheels from locking during heavy or emergency braking, enabling the vehicle to remain steerable. When braking, wheel speed sensors measure the road wheel speed and should one or more wheels start to lock the system reduces brake pressure to that wheel.

Elements of the ABS System :-

- **Dual Rate Vacuum Brake Boosters:** increases brake effort under emergency braking conditions.
- **EBC:** Electronic brake control. The engine brake torque control regulates the power supply by intervening with the engine management system.
- **EBD** (aka EBV): Electronic Brake Distribution automatically distributes different pressures to the front and rear brakes to stop the rear wheels from locking up under heavy braking. It also compensates for loaded and unloaded vehicles therefore doing away with the need for a Load Sensing Valve on the rear axle.

CAN Bus: the CAN Bus is an electronic data bus which links the various different electronic control systems in the car. It ensures ideal co-ordination between systems and reduces the amount of wiring needed in the car.

Fuel cut-out: should one or more of the airbags inflate after an accident, this system automatically cuts out the fuel supply, thus preventing subsequent leakage of the diesel or petrol.

Trip Computer: the trip computer not only features an impressive range of data displays, operating it is simplicity itself. A multifunction touch key enables you to call up all relevant data on the easy-to-read display. Features include external temperature, time, current fuel consumption, average fuel consumption, miles driven and average speed.

DPF: diesel particulate filter is part of the exhaust system responsible for cleaning the engine exhaust gases before they enter the atmosphere. The DPF catches soot particles emitted in the exhaust gas and it works in conjunction with the catalytic converter, which reduces the amount of harmful gases entering the atmosphere. The DPF must periodically be emptied of the soot particles, a process known as regeneration. This involves elevated exhaust system temperatures.
A driving style is required during regeneration, where a constant vehicle speed above 37 mph must be maintained. This does not always suit customers who make frequent short journeys or experience stop/start driving or drive within inner-city or urban areas.

Bi-Xenon lights: Bi-Xenon lights produce about 2.5 times the light of standard Halogen lights with 35% less energy consumption.

CR: All Superb's diesel engines are built on a system of Common-Rail fuel injection. The diesel engines have a high-pressure common rail direct injection fuel system and four-valve technology. As a result, the new engines are much quieter, more refined in their operation and consume less fuel, compared to the Pump Duse engines available previously and significantly reduce emissions.

AFS: Adaptive front light system is a feature of Bi-Xenons and allows the light beam to adapt to the car's speed, direction and the weather conditions. Urban driving emits a shorter, wider beam whilst faster driving emits a longer beam. Cornering function sees the beam turn up to 15 degrees in direction of the steering wheel's turn. The beam will also adjust according to car load, acceleration and wet weather to prevent dazzling oncoming vehicles.

ESC: Electronic Stability Control is designed to stabilise the dynamic handling response of the vehicle by counteracting any tendency towards oversteer or understeer. The ESC constantly compares the actual movement of the vehicle with predetermined values and according to the situation ESC reacts by braking each wheel individually (according to direction of slip) and automatically adjusting the engine's output.

Elements of ESC system:-

- **ASR:** anti-slip regulation traction control ensures the Superb's stability when pulling away or accelerating. If the engine power or torque being transmitted to the drive wheels is too great, for example on a slippery road surface, engine torque is automatically reduced until optimum road holding returns, thus preventing wheelspin. A light indicates whether the ASR system is on. It can be manually switched off.
- **MSR:** the engine torque control system recognises when the wheels are subject to too much slippage and regulates the power supply by intervening in the engine management system. This prevents wheelspin when, for example, changing down on a smooth or wet road surface. MSR is a constituent part of the ASR system.
- **EDS:** the electronic differential lock continually compares the rpm of the drive wheels, and if it identifies a difference between them which could lead to an individual wheel spinning, for example if the two wheels are on different types of surface or accelerating on wet leaves, the system brakes the wheel affected until uniform rpm of all drive wheels is restored.
- **HBA:** Hydraulic brake assistant increases the optimal build-up of brake power. It ensures complete use of the brake system potential, thus shortening the braking distance.
- **DSR:** Driver Steering Recommendation – in a crisis situation it helps the driver stabilize a skid by making a slight intervention in the steering.
- **ESBS:** Electronic Stability Brake System – targeted interventions in the braking process improve the handling of a car as it brakes when passing round a bend and keeps it from veering.

Calculating your tax liability

To find out how much tax you will pay, simply take the P11D value, then multiply this figure by the BiK percentage. Then simply multiply this figure by 20% or 40% depending on the level of income tax that you pay.

Please note if your employer provides you with free fuel, this is treated as an additional taxable benefit.

For more information on company car taxation please visit the HM revenue and customs website hmrc.gov.uk

BiK calculation example - Superb Hatch S Greenline III Hatch 1.6 TDI CR 105PS DPF

P11D value	£20,145.00
Company Car BiK tax based on CO_2 emission level	17%
Taxable BiK (for 2014/2015 tax year): 17% of £20,145.00	£3,424.65

Annual company car tax (2014/15)

20% Income Tax: 20% of £3,424.65	£684.93
40% income Tax: 40% of £3,424.65	£1,369.86

Monthly company car tax (2014/15)

20% Income Tax: £684.93 divide by 12 months	£57.08
40% income Tax: £1,369.86 divide by 12 months	£114.16

Warranty

Exclusions and limitations
Wear and tear components will only be considered under the terms of the warranty for the first of six months or 6,500 miles, whichever is soonest. These include, but are not limited to brake linings and disc pads, clutch release bearings, clutch pressure plates and centre plates, tyres, wiper blades, seat and backrest covers, floor coverings, spark plugs, batteries for key fobs and alarms, light bulbs and shock absorbers.

Mechanical adjustments including but not limited to adjustments to doors, flaps, boot lids, bonnets and sunroof, brake adjustment, clutch adjustment, v belt adjustment, ignition adjustment, headlight adjustment, steering geometry adjustments and wheel balancing are excluded.

Damage (including but not limited to the following) is excluded:

> Damage caused by your failure to take all reasonable steps to prevent mechanical damage from occurring.
> Damage or defects caused by not having the vehicle serviced in accordance with the manufacturer's guidelines.
> Damage or defects caused by improper use of the vehicle, neglect or use of the vehicle for motor sports activities.
> Damage caused by an accident.
> Damage to paintwork or chrome caused by external influences, such as climatic, chemical or industrial pollution.
> Damage resulting from the use of non-original replacement parts.

Routine maintenance and servicing is not covered by the warranty. Incidental or consequential costs such as hotel charges, car hire, loss of personal effects or income are not recoverable under the terms of the warranty.

Service Intervals

When you order your Superb, you can choose whether your car is on a fixed or a flexible service regime. Your retailer will help you decide which regime suits how your car will be driven, enabling your car to stay in the best possible shape.

Fixed regime: Service every 10,000 miles or one year (whichever comes first). This is recommended if the vehicle is likely to be used in the following way:

> Driven fewer than 10,000 miles per annum **and/or**
> Mainly short journeys, drive mostly in towns or cities **and/or**
> High vehicle loading/towing and frequent hill climbs **and/or**
> Heavy accelerating and braking, using high revs

Flexible regime: Sensors in the engine detect when a service is needed. You will be informed of this by a service light which will show at any point between 9,000 and 20,000 miles, up to 24 months (whichever comes first).

The flexible service regime is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly and mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner.

Motability

People in receipt of the Higher Mobility Component of the Disability Living Allowance receive special help from ŠKODA. Preferential prices on low cost Contract Hire are available through your local approved Motability retailer. For full details, contact your retailer.

ŠKODA Ensurance
Ensurance from ŠKODA Insurance is sold and administered by Lawshield UK Limited, registered in England number: 3360532 (registered office: Lawshield House, 850 Ibis Court, Lakeside Drive, Centre Park, Warrington, Cheshire, WA1 1RL) and underwritten by UK General Insurance Limited on behalf of Ageas Insurance Limited, registered in England number: 354568 (registered office: Ageas House, Tollgate, Eastleigh, Hampshire, SO53 3YA).

For details of our full range of insurance products visit insurewithskoda.co.uk.
For a quote call us free on 0800 316 8025. Lines are open Monday to Friday 8am – 9pm and 9am – 5pm on Saturday.

ŠKODA Insurance is a trading name of Volkswagen Insurance Service (Great Britain) Limited, an appointed representative of Volkswagen Financial Services (UK) Limited, registered in England number: 2835230 (registered office: Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR). ŠKODA Insurance motor insurance is sold, underwritten and administered by Allianz Insurance plc, registered in England number: 84638 (registered office: 57 Ladymead, Guildford, Surrey GU1 1DB). Both organisations are authorised and regulated by the Financial Conduct Authority (FCA), whose registration numbers are 311988 and 121849 respectively. Authorisation details can be checked on the FCA's register at www.fca.org.uk or by contacting the FCA on 0800 111 6768. Volkswagen Financial Services (UK) Limited and Allianz Insurance plc are not part of the same corporate group.

Band	CO_2 (g/km)	First 12 Months[1]	Standard VED[2]
A	Up to 100	**£0**	£0
B	101 – 110	**£0**	£20
C	111 – 120	**£0**	£30
D	121 – 130	**£0**	£110
E	131 –140	**£130**	£130
F	141 – 150	**£145**	£145
G	151 – 165	**£180**	£180
H	166 – 175	**£290**	£205
I	176 – 185	**£345**	£225
J	186 – 200	**£485**	£265
K	201 – 225	**£635**	£285
L	226 – 255	**£860**	£485
M	Over 255	**£1,090**	£500

OTR (Recommended On The Road)
Recommended 'On the Road' prices include delivery, 12 months Road Fund Licence, DVLA First registration Fee (at £55), and apply to the United Kingdom only.

VED (Vehicle Excise Duty)
All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO_2) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO_2 figures may differ on these vehicles if taken from current ŠKODA UK stock. The VED bands are shown in the table opposite.

[1] First year vehicle licence rates for petrol and diesel cars purchased on or after 1st April 2014. First year rate or 'showroom tax' applies to new car purchases only.

[2] Rate reverts to the Government's applicable Standard VED rate in subsequent years.

Edition:UK 1st April 2014. VAT is calculated at 20%. Please confirm figures with your ŠKODA Retailer.

Company car tax is based on your cars carbon dioxide emissions. The higher the car's emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes.

To help you work out your tax liability please refer to page 42.

P11D (Expenses and Benefits)

The P11D value is calculated by taking the On The Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

BIK (Benefit in Kind)
The BiK percentage value is based on the CO_2 emissions of the vehicle for the current tax year 2014/2015.
