

Volkswagen. Das Auto.

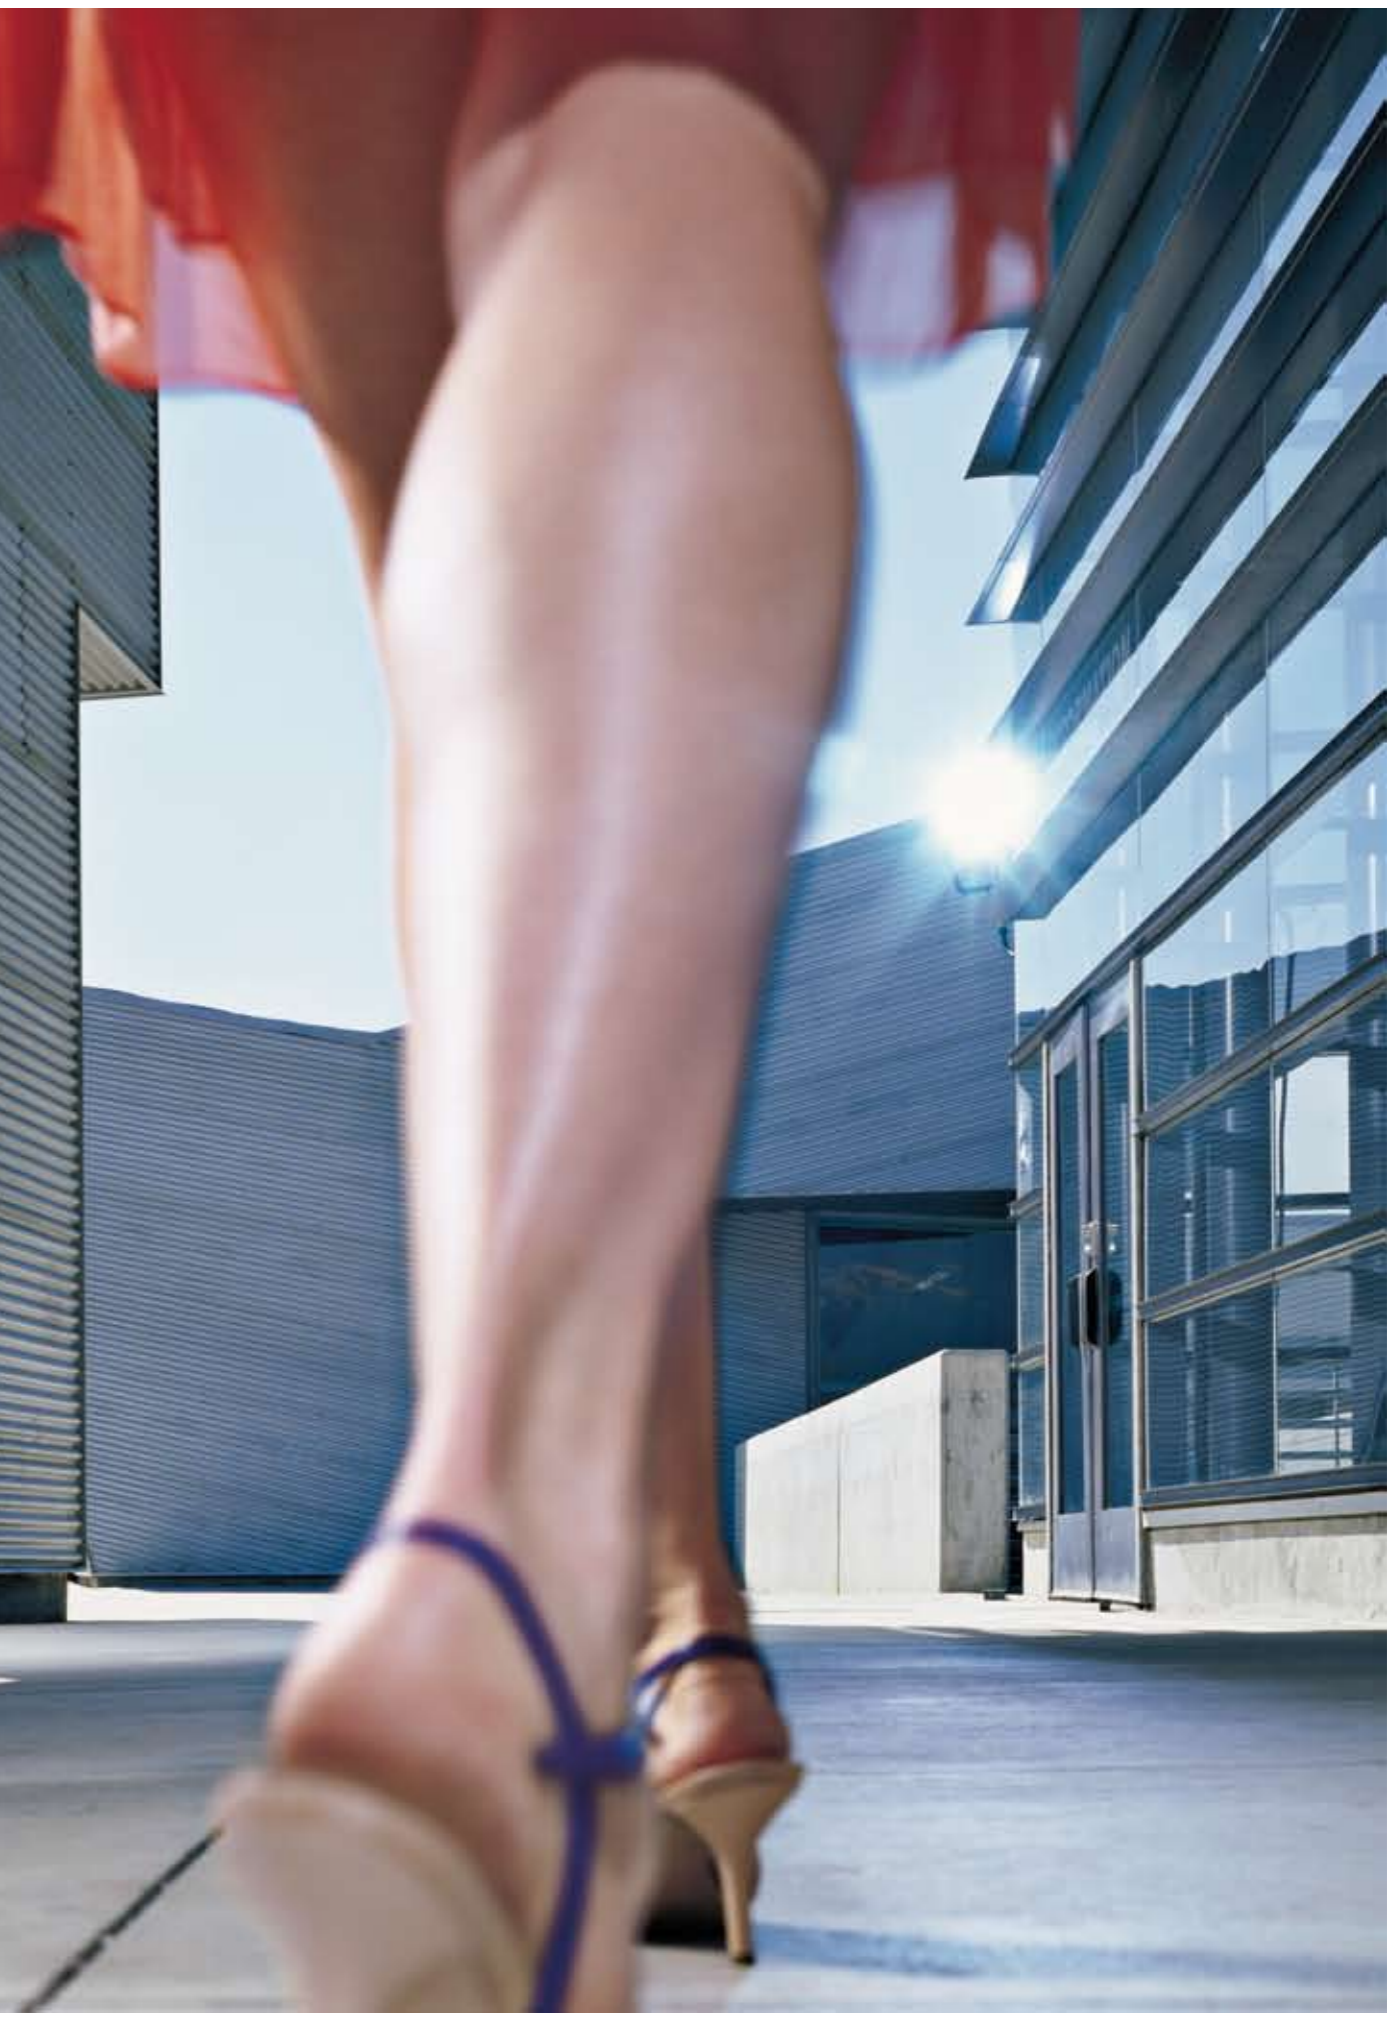

The New Beetle

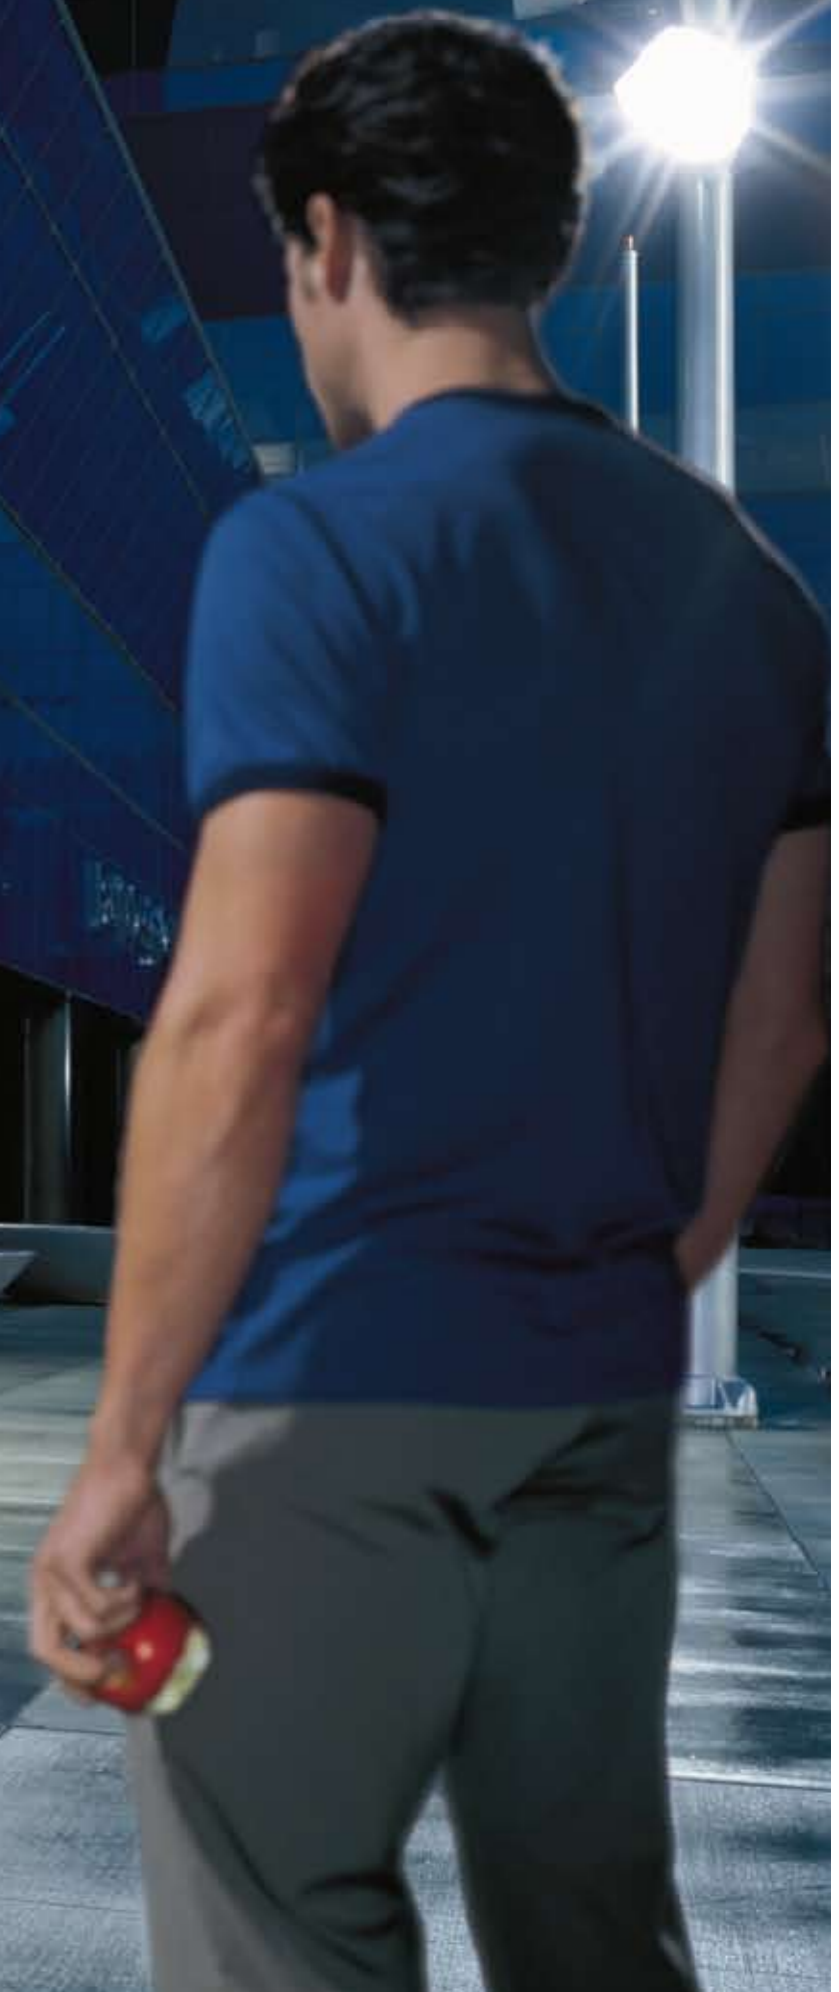

56-44-56
(down boy down)

Striking. Since 1937.

**The New Beetle will move you-
every single day.**

First you won't be able to get your eyes off it. Then your hands.

The New Beetle. Created by attention seeking engineers.

Interior.

The New Beetle makes you feel at ease from the very first moment. Enjoy an interior design with pleasing rounded contours which is anything but ordinary. Everything is within easy reach and easy to operate, and the textures fulfil the promise of its high-grade appearance. Welcome to the New Beetle.

The instrument cluster has blue illumination and gives you the most important driving data at a glance.

The attractive design of the door handles are inspired by the rounded contours of the New Beetle.

The clock and outside temperature display above the rear-view mirror match the interior design perfectly.

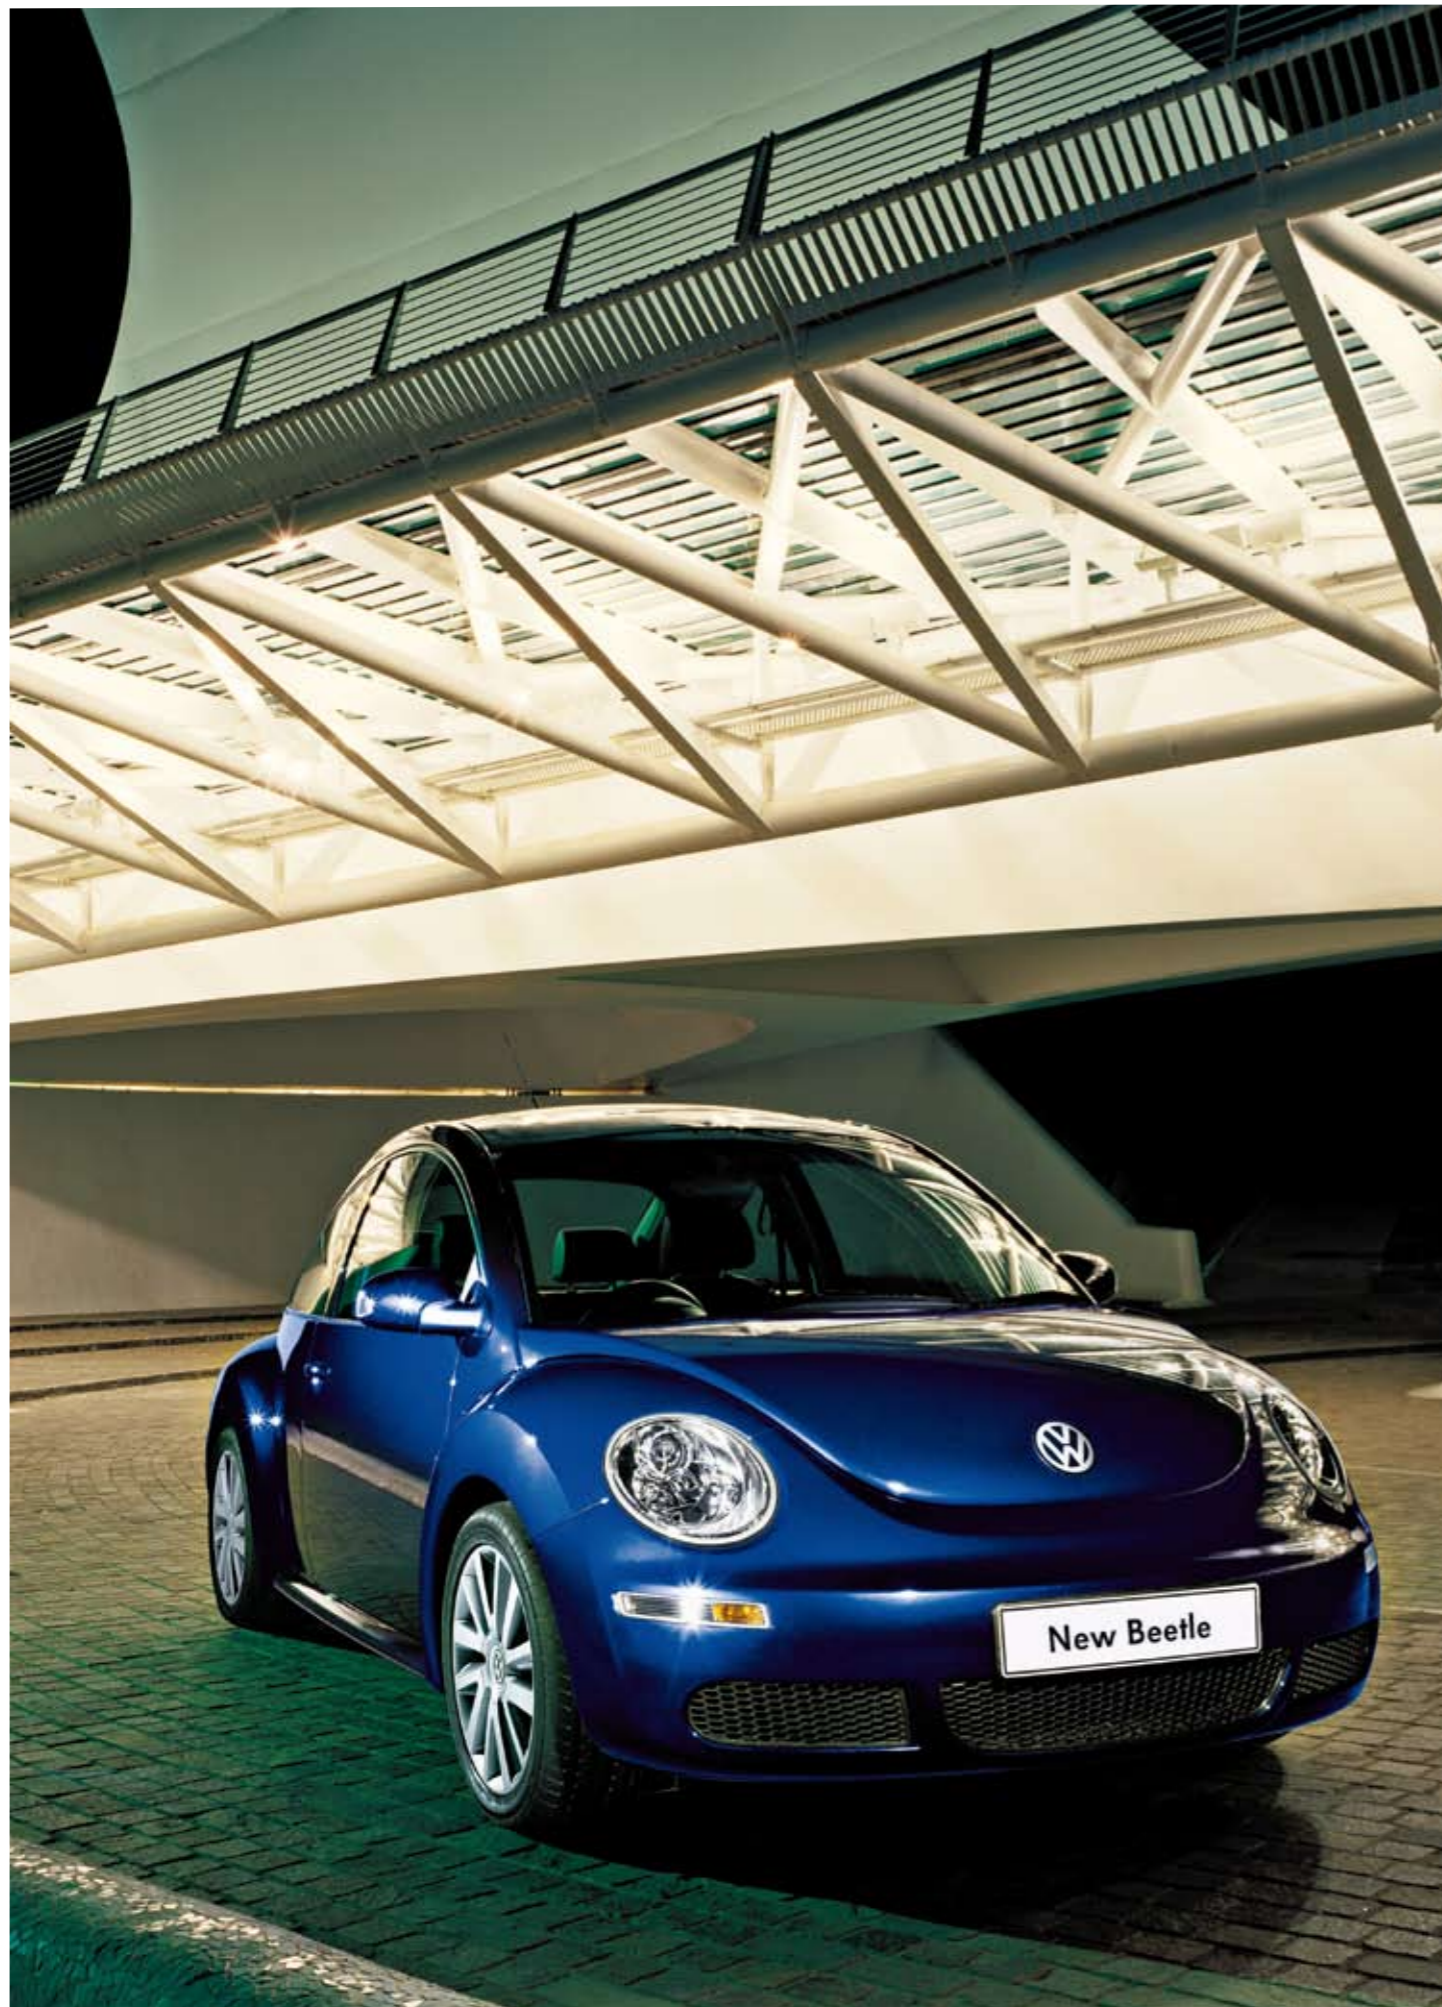

A specially designed cup holder sits at a comfortable distance in the New Beetle. So that while you're on the move, your coffee break doesn't need a stop.

The interior of the New Beetle with high-grade materials and comfortable seats ensure a feeling of well-being.

Tune into the MP3 compatible 'gamma' radio CD Player with Aux-in, which allows you to plug-in external equipment. With your favourite tracks at your fingertips, your drive in the New Beetle, will always make you sing with pleasure.

Safety.

Yes, we know it's a small car. But when it comes to safety, the New Beetle gives you a feeling of security the moment you are seated inside. With ESP, ABS and other safety features in tow, the New Beetle comprises of a comprehensive active safety package, making it one of the safest vehicles in its class. We have also equipped the New Beetle with a passive safety package that gives you the greatest possible protection. The carefully matched restraint system, consisting of four airbags and a 3-point inertia reel seat belt system at front and rear, is also part of the standard equipment. Go ahead and enjoy the drive.

The Electronic Stabilisation Programme (ESP) keeps the New Beetle safely on course.

Additional safety feature: When the doors are opened, reflectors ensure that you can be clearly seen in the dark.

Reassurance: The Anti-lock Braking System (ABS) ensures that the New Beetle remains steerable and controllable even when the braking is hard.

The front passenger's airbag can easily be deactivated with the key of the vehicle.

Every part of the New Beetle is curvy. Take for example the beautifully moulded backlights, that make a statement and turn on the desire everywhere you go.

Exterior.

Volkswagens are famed for their traditional quality and the New Beetle is naturally no exception – all materials used are carefully tested and have outstanding workmanship. The body is galvanised giving reliable protection against rust. The high-strength panels on the New Beetle are given additional stability at specific points which achieves a very high level of torsional rigidity. The precision fit of body parts results in picture-perfect dimensions.

The sleek headlights on the New Beetle are crafted to perfection. And help put a face to that legendary smile, each time you see the New Beetle.

To compliment the beautiful design of the New Beetle, is a third brake light that seamlessly fits in at the back.

You have a good grip on everything with the height and rake adjustment for the steering wheel – and a good view of the instrument cluster with blue illumination.

Standard equipment.

In a New Beetle, you enjoy the comfort and convenience afforded by an exclusive standard specification. Right from the 116PS (85 KW) engine version, it includes electrically adjustable and heated door mirrors, power steering, colour-keyed door mirror housings, door handles and bumpers; and, of course, the legendary flower vase.

Electric front windows with anti-pinch and comfort operation.

The driver's seat has a height adjustment apparatus for your sitting comfort and an optimal view.

Circular air vents with elegant surrounds.

The storage compartment in the headlining provides space for small items needed during the journey.

The fuel flap and luggage compartment can be unlocked from inside the vehicle at the touch of a button.
