It tells you how far the existing amount of fuel can take you. It monitors the air pressure and temperature of each tyre. It even controls the cabin temperature. At the same time, voice commands and MAHINDRA BLUE SENSE® Technology let you take wireless, vocal control of a number of systems like music, navigation and mobile calls.

► TWIN-POD CLUSTER

► CONVENIENTLY PLACED COOL BOX

NEW ICY BLUE LOUNGE LIGHTING

SUPERIOR PERFORMANCE.

► POWERFUL 2.2 LTR, mHAWK DIESEL ENGINE

The authoritative exterior promises unbridled excitement. And the mHawk140 engine lives up to this promise. The 2.2 ltr. power plant delivers an output of 103 kW (140 bhp) and an impressive torque of 330 Nm. And the 5th generation variable geometry turbocharger ensures instantaneous acceleration taking it from 0 to 60 kmph in a mere 5.4 seconds.

► ALL WHEEL DRIVE (AWD)

Whether it's heavy rain, snow, ice or a slippery surface, the intelligent All Wheel Drive technology developed by Borg Warner ensures your vehicle is always in control. It also ensures better drivability, with a seamless transition from 2WD to AWD without any driver intervention. The AWD is further fortified with NexTrac™, the next generation, electronically-controlled, on-demand, Interactive Torque Management System. Altogether giving you unmatched handling prowess.

ELECTRONIC STABILITY PROGRAM (ESP) WITH ROLLOVER MITIGATION

ANTI-LOCK BRAKING SYSTEM (ABS) WITH EBD

► HILL DESCENT & HILL HOLD CONTROL

Amongst the host of features, these are two very useful ones. Hill Descent Control identifies steep inclines and engages itself to assist the vehicle down the slope with caution. While Hill Hold Control prevents the vehicle from rolling backwards when starting from standstill on an incline.

► SPORTY SUSPENSION. FOR RACETRACK-LIKE DRIVES.

The sporty suspension of the New Age XUV500 gives a lot of room for fun, thanks to the McPherson struts up front and the independent multilink suspension in the rear.

► 6 AIRBAGS (FRONT, SIDE AND CURTAIN)

6 airbags reinforce your safety in the New Age XUV500. Driver & passenger airbags, side airbags and curtain airbags keep any impact from reaching you. As if that wasn't enough, the vehicle's body also comes with side impact beams and thoughtfully located crumple zones. They don't just absorb the crash energy, but redirect it around the passenger compartment as well.

► MONOCOQUE CONSTRUCTION FOR DREAM-LIKE HANDLING

This is the essence of the New Age XUV500's uncompromised driving dynamics. The monocoque construction is found only in the most modern SUVs around the world. Here, the vehicle body and platform are integrated into a single unit. The result is an excellent power to weight ratio, unmatched handling and undiluted driving pleasure.
