

Life takes many turns. LUV keeps us going.

Introducing the all-new Maruti Suzuki Ertiga.

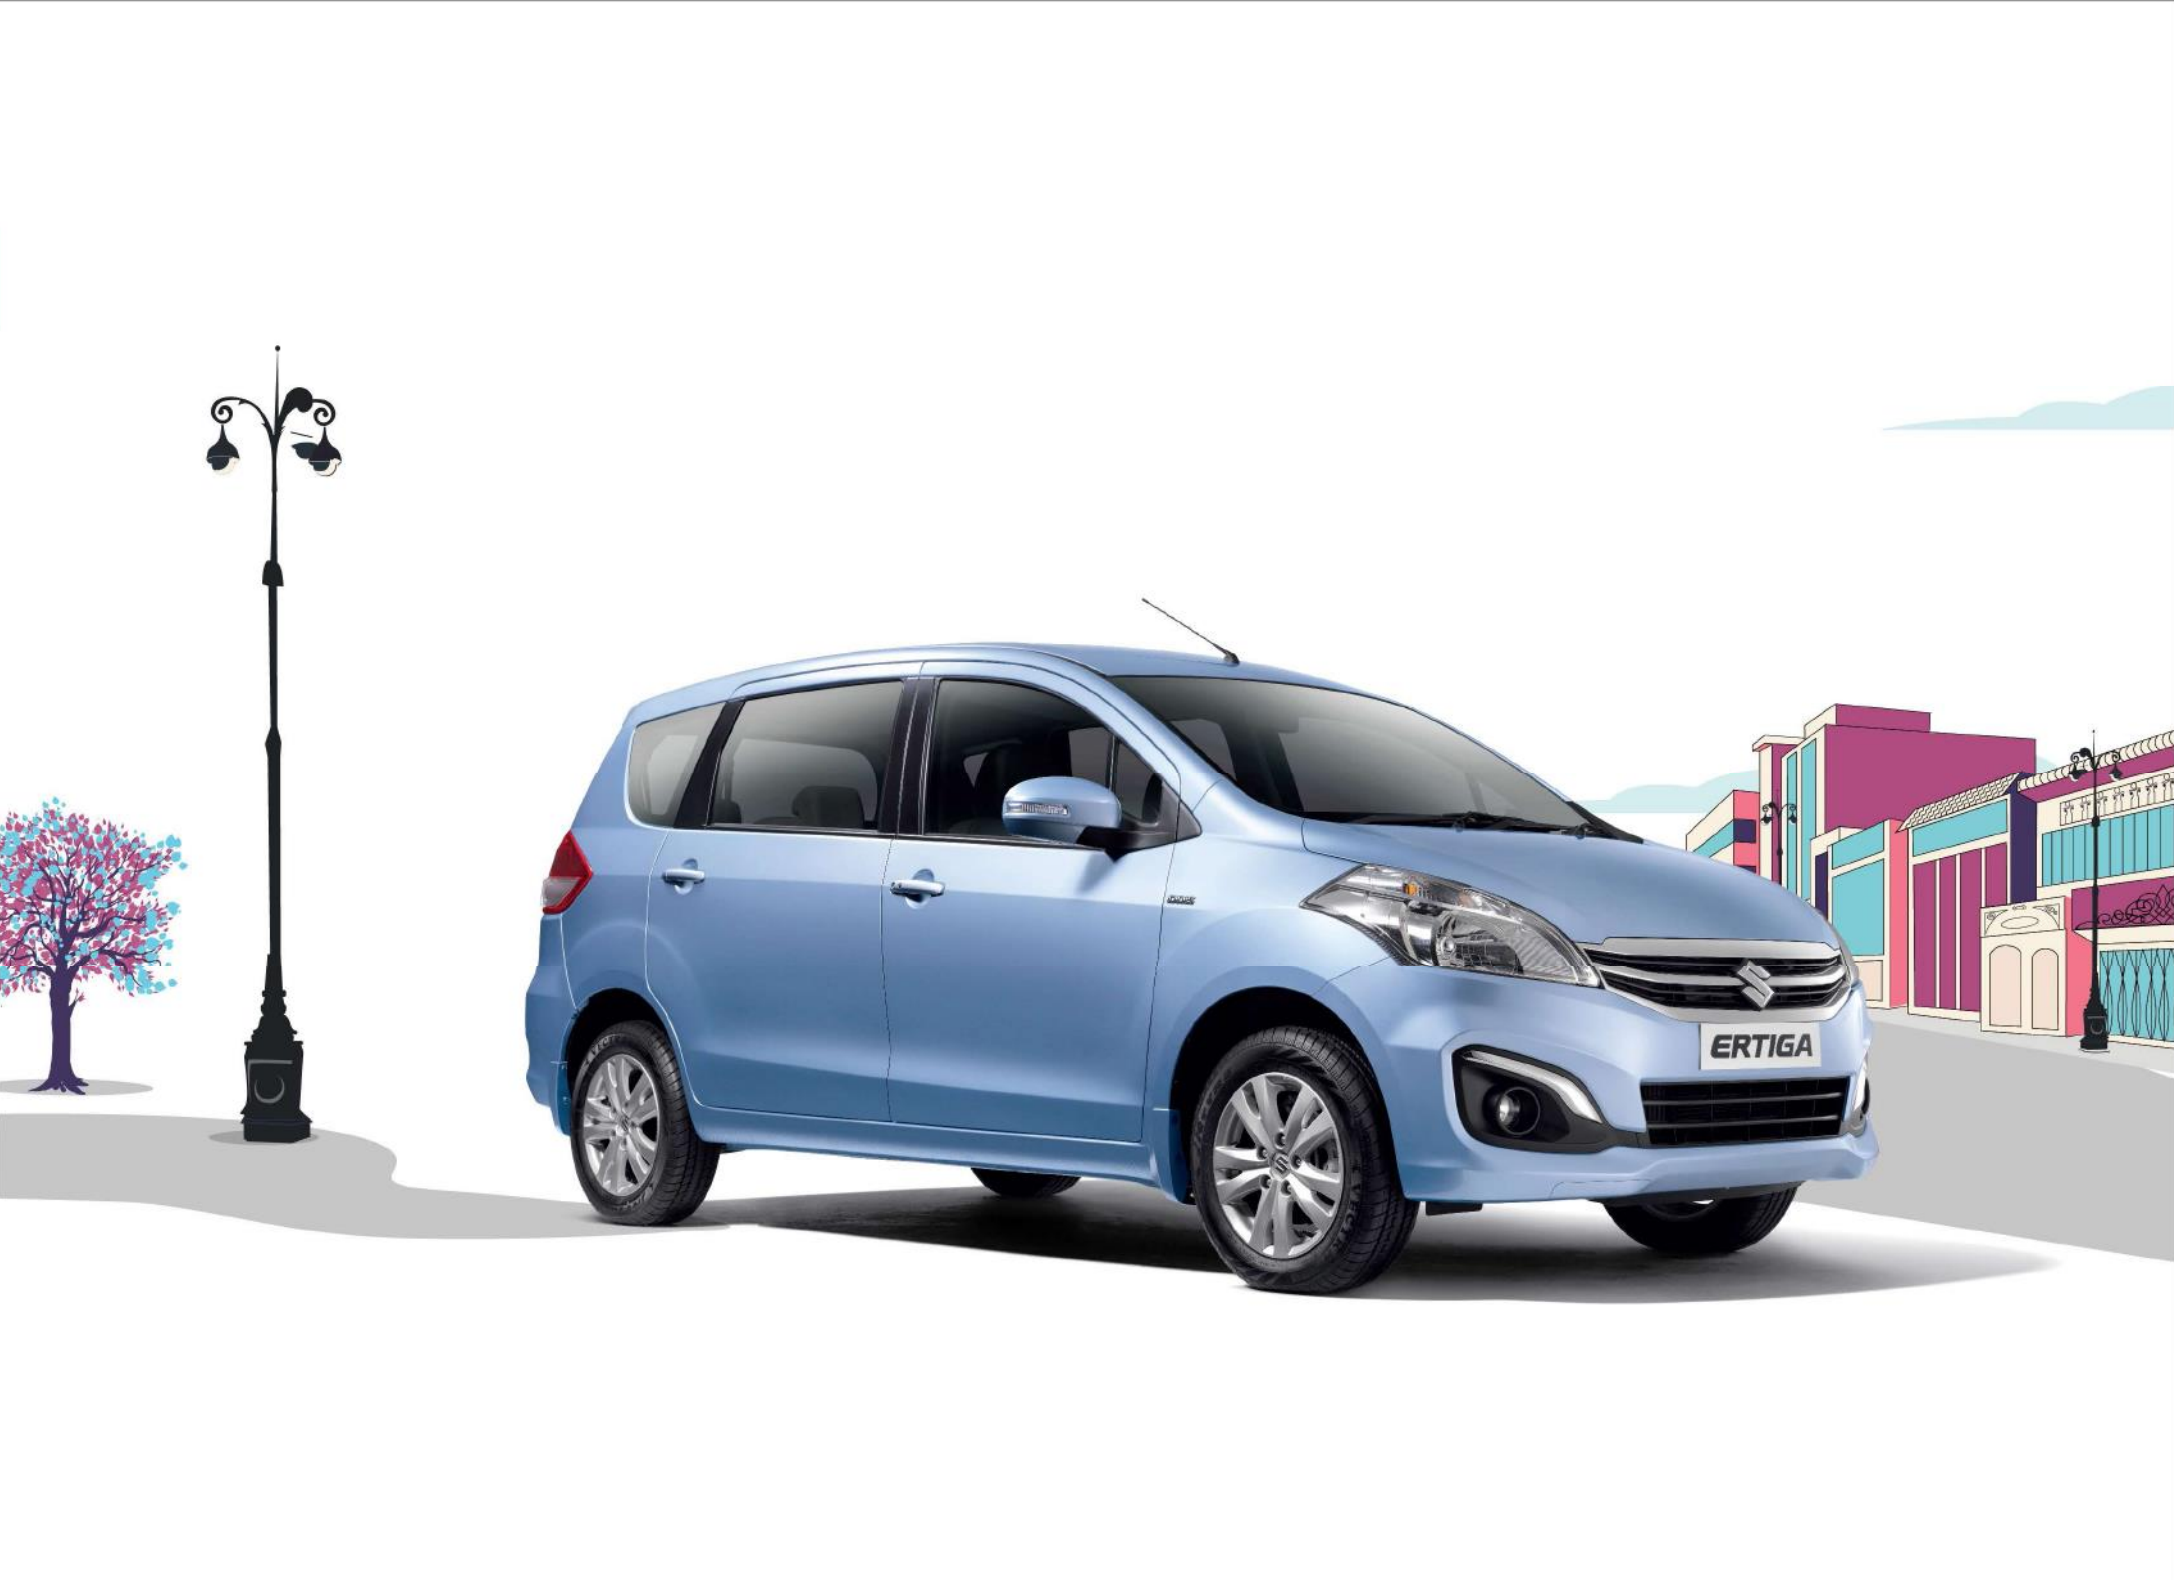

ERTIGA
a feeling called LUV

An illustration of a colorful amusement park street scene. On the left, there's a multi-story building with arched windows and a red awning. In the background, a Ferris wheel and a roller coaster are visible. In the foreground, a man and a woman are walking together, carrying shopping bags. The scene is set against a light blue sky with stylized clouds.

Introducing the all-new Maruti Suzuki Ertiga.

Life goes through a lot. Ups and downs. Sharp turns. But in spite of all this and more, there's something that keeps us going - the feeling called LUV. And now there is a little more to this feeling - from a luxurious chrome grille to a new Smart Hybrid Engine, to a Touchscreen Infotainment System, the new Ertiga comes with a host of new features designed to meet every expectation.

LUV makes life beautiful. Every day.

*From having to make your way through the narrow lanes bustling with cars just to buy groceries,
to following your heart on a beautiful rainy afternoon, each day brings along a new experience.
But the one thing that gives you the drive to keep going is the LUV that has always been there for you.
And now, with the new and improved LUV, you might also attract more than a few loving glances.
Thanks to not just its sporty new bumpers, but a chrome back door garnish, integrated spoiler and much more.*

Aerodynamically Superior

*Promotes fuel efficiency
& reduces wind noise.*

Sweeping Headlamps

For sharp looks and elegance.

Fog Lamps with Chrome Bezel

*While the fog lamps lend ease in tough
conditions, the chrome enhances elegance.*

Sporty Alloy Wheels

Provides edge and lends it a sporty feel.

Luxurious Chrome Grille

*Adds a touch of class to the already
stunning exteriors.*

Stylish Front and Rear Bumpers
Adds sharpness to the already stylish looks.

Classy Chrome back Door Garnish
*Provides elegance and enhances
sense of width.*

Turn indicators on ORVM
Turns on the style quotient.

LUV goes beyond face value.

In life, sometimes one look is all it takes to get attracted to something beautiful, but true love goes beyond the exterior. Just like the new Ertiga, where the interiors are as alluring as its exteriors. From utility to comfort, everything has been taken care of in order to deliver the most unique driving experience ever.

Features:

Sleek Dashboard

A sleek looking dashboard, done up in contrasting brown and beige, fitted with new-improved and user friendly features.

Dashing Chrome Door Handles & Silver Trims

Adds to the beauty of the interiors.

Premium Upholstery

Adds a touch of class and also enhances comfort.

2nd row Armrest for Comfort

For added comfort to the rear seat passengers

*Whatever
life throws at you,
LUV accommodates.
Always.*

Introducing the all-new Maruti Suzuki Ertiga with the 5+2 Flexi Seating.

*The true spirit of love lies in togetherness and moving along with everyone.
And that is precisely the reason why LUV accommodates. As many as 7 people.
Its long wheelbase, enough headroom and careful positioning of seats go a long
way in providing complete comfort and ample space for each passenger.*

*LUV makes space for everything.
And everyone in life.*

Be it a group of hitchhikers you meet on the way, to the ever enthusiastic relatives always ready for a family day out, or the never ending shopping bags your wife collected on yet another shopping spree, LUV makes space for everything in life. Which is why the new Ertiga has a 3rd row with 50:50 split apart from the spacious boot space, and provides ample space for one to enjoy the drive in comfort.

LUV guides, entertains and celebrates. Life.

Presenting the new Maruti Suzuki Ertiga with a SMARTPLAY infotainment system.

Now you can sort through albums, playlists, artists and songs at the tip of your fingers. The new Smartplay infotainment system comes with a plethora of features like WVGA TFT display with touch screen, Bluetooth Connectivity*, Voice Command, Navigation System and Reverse Parking Camera Display. Compatible smartphones# can be connected through MirrorLink and Apple Carplay®, which enables you to access authorised apps through SMARTPLAY without having to take your eyes off the road. With voice recognition to Indian Accent English, you can now talk your way to your destination. With so many features in one device it is safe to say that SMARTPLAY gives you a clear edge in entertainment.

*to check compatibility for your device visit www.marutisuzuki.com/smartplaysystem

*LUV makes
life easy.*

2nd row AC with Controls

*Thanks to the rear AC,
even the people sitting at the back will get
great cooling.*

Push Start with Smart Key

*No keys so that one can drive around
with ease.*

**Steering Mounted Audio
and Calling Controls.**

*Steering wheel controls now come
integrated with Voice command and Call
pick-up switches as well.*

Stylish Meter Cluster with LCD Display

*Sporty and stylish dials with LCD display
enhances driving experience by keeping one
updated about everything one needs
to know about the car.*

2nd Row Accessory Socket

*A subtle inclusion that allows one to keep
the batteries always charged.*

Electric Foldable ORVM

Makes driving easy and convenient.

LUV cares for you. Always.

Introducing the all-new Maruti Suzuki Ertiga with unique features of utility.

LUV does not let you worry too much. It doesn't make you put in the extra efforts. Which is why, the all-new Ertiga is designed to ensure that every item of convenience is always within your reach. Just so that the travelling experience is as soothing as it can get.

**Driver & Passenger (Fr.)
Seatback Pocket**

**Retractable Cup Holder
on Dashboard**

**Front and Rear Door
Bottle Holders & Pockets**

3rd row Cup Holders (2 Nos.)

Luggage Box

Glove Box

Dashboard Rack

LUV is beautiful. From the inside.

Introducing the all-new Maruti Suzuki Ertiga with a light, compact and efficient engine.

The new Maruti Suzuki Ertiga comes equipped with a powerful engine in both the diesel and petrol variants. Now, no matter where life takes you, the new LUV with its lively power, outstanding fuel efficiency and reduced emissions will always keep you going.

K14B VVT Petrol Engine

When it comes to fuel efficiency, the all- new Ertiga is second to none - with the new and advanced VVT (Variable Valve Timing technology) and a 1.4 litre petrol engine. The VVT helps optimise intake-valve timing, which refines power delivery and boosts fuel efficiency. It also helps reducing friction in engine components, for smoother running and reduced engine noise.

The new Ertiga also comes in a CNG variant. It is the smartest and an affordable choice to make as it is the cleanest burning transportation fuel in the market today.

PETROL
17.50* Km/l
(Manual Transmission)

17.03* Km/l
(Automatic Transmission)

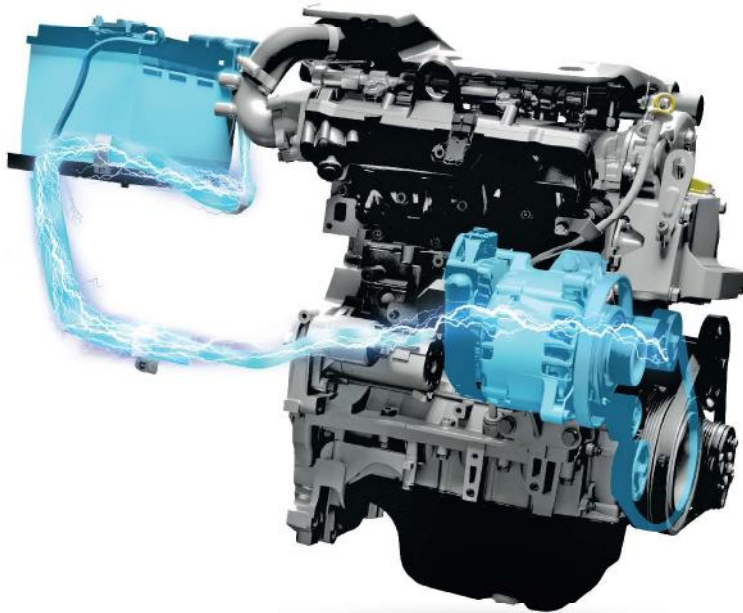

*Test results of rule 115 of CMVR

4 Speed Automatic Transmission

It gives great driving comfort and convenience even in the middle of heavy traffic. What's more, you don't have to worry about gear shifts anymore, which makes driving more pleasant than ever before.

DDiS 200 Diesel Engine

DIESEL **24.52*** Km/l

**Test results of rule 115 of CMVR*

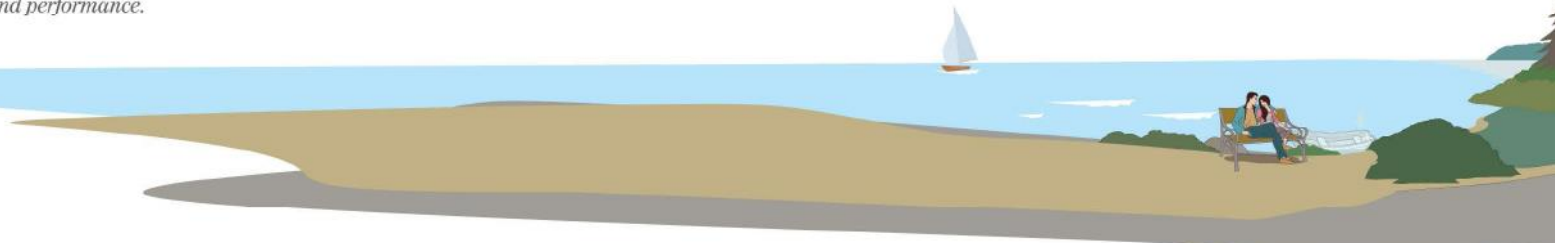

The 1.3-litre DDiS 200 diesel engine in combination with Variable Geometry Turbocharger (VGT) generates optimum power and high dynamic torque for excellent acceleration. Together with an Integrated Starter Generator (ISG) it helps improve fuel efficiency by supplementing the engine's power and all-round performance.

Smart Hybrid Technology

More often than not life hits a road block. But still manages to move on and find enough rev. Just like the new Ertiga does with its new generation DDiS 200 Diesel engine. Its revolutionary Smart Hybrid Technology comes equipped with an Integrated Starter Generator (ISG) which is capable of recovering energy from the car's deceleration and using it to improve fuel efficiency by supplementing the engine's power. This energy is stored in a high capacity battery. The ISG's motor function is used to restart the engine. This assists in the engine's auto stop and start function and helps the engine during acceleration, thus reducing fuel consumption even further.

Smart Hybrid Features:

- **Idle Stop Start**
It comes into play by shutting down the engine when the car comes to a complete halt and silently start's the engine when the driver presses the clutch. This results in better fuel efficiency.
- **Torque Assist Function**
The torque function of the car is assisted by the regeneration of the energy. It improves the engine's overall performance and also helps provide optimal acceleration.
- **Brake Energy Regeneration**
The braking generates energy that charges the special high capacity battery. This energy from the battery assists the engine's auto stop and start function, and helps the engine during acceleration.
- **Gear Shift Indicator**
A gear shift indicator prompts the driver to change gears at the most ideal engine RPM to ensure a smooth ride and better fuel efficiency.

LUV is there for you when you need it the most.

Life is simpler and much more beautiful when you know there is always someone who cares for you. Just like the new Ertiga which comes integrated with a host of new features that ensures safety of each and every passenger. Just so that, safety is never compromised.

SRS Airbags

The Ertiga is equipped with supplemental restraint system (SRS) dual front seat airbags that help cushion the impact and reduce the chances of injury.

Rear Parking Sensors and Camera

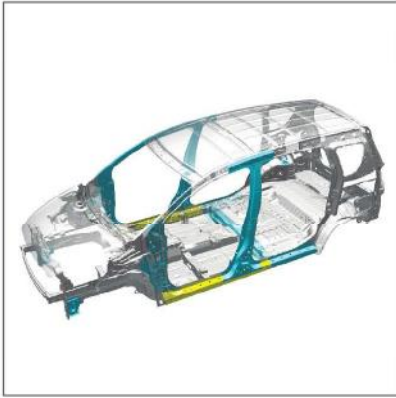

Parking camera with sensors at the back helps park the car and notifies about any obstacles while reversing the car.

Height Adjustable front Seatbelt with Pre-tensioner & Force Limiter

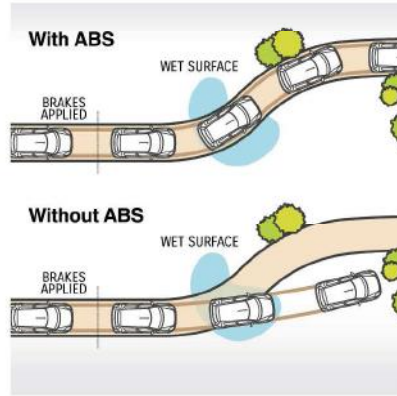

The new Ertiga comes with a height adjustable front seat belt for enhanced comfort. In addition, the front seatbelts are also fitted with pre-tensioners and force limiters that ensures better safety.

Optimised Strength and Weight

A body structure made out of higher tensile steel and carefully positioned reinforcements provide excellent rigidity and strength, also reducing the overall body weight without compromising on safety.

ABS with EBD for Controlled Braking

The Ertiga comes with ABS (antilock brake system) which prevents the wheels from locking up during sudden braking and EBD (electronic brake force distribution) which uses the ABS to optimise distribution of braking force to the front/rear and left/right wheels in response to vehicle load and driving conditions, to optimise braking performance.

Seat Belt Reminder with Buzzer

The latest entrant to the Ertiga family that makes sure you are always wearing your seat belt.
